Report for the Six Months Ended 30 June 2017

On July 27th 2017, the Board of Directors of Vassiliko Cement Works Public Company Ltd approved the financial results of the Group for the first half of the year that ended 30 June 2017.

Financial results

Revenues for the first half of 2017 reached €52.812.000, compared to €49.027.000 for the respective period of 2016. Revenue increases were driven by the acceleration of demand in the domestic market, which has grown steadily for the second year in a row. The increase in the domestic demand made up for the cost of pricing reductions in between the periods.

On the production front, there was a negative impact from energy costs and primarily electricity negatively affecting the operating margins compared to the previous year.

Profits from investing activities and associated companies contributed positively towards the overall profitability with an improvement of €454.000.

As a result, the profit for the period reached €11.777.000 compared to €11.895.000 for the same period of 2016.

Prospects for the year

The strong revenues seen during the first half of the year continue, but energy costs will also continue to stay high compared to 2016.

4. Main risks and uncertainties

The uncertain economic conditions, the limited availability of financing for individuals and businesses by the banking system in general, energy prices and exchange rates, could affect:

- (1) the Group's income and operating costs,
- (2) the ability of the Group's trade and other debtors to repay the amounts due to the Group, and

(3) the cash flow forecasts of the Group and the assessment of impairment of other financial and non financial assets.
