PRESS RELEASE

Vassiliko Cement Works Summer School

Vassiliko Cement Works has successfully reached the end of the summer school operation for the 3rd consecutive year. The summer school operated from July 6th to August 28th, 2020 at the premises of Zygi Public Primary School, hosting employees' and nearby communities' children, aged 6 to 12 years old.

Amid the difficult situations due to the Covid pandemic, Vassiliko Cement Works decided to operate the Summer School following the health protocol which has been set for all summer schools.

By operating the Summer School, the purpose was to offer creative time during summer, not only to the Company's employees' but also the neighbouring communities' children.

This year's, specially designed program, consisted of creative activities such as crafts, theatre, judo, music, dance, gym, confectionery, cycling, archery, walks in the neighbouring park, workshops aimed at awakening the true power of children and its constructive use in every aspect of their lives. The children's lunch and snacks were based on a healthy diet and were offered in individual sealed packs prepared by a local restaurant.

The operation of the summer school is an important social initiative through which contribution, cooperation, respect and trust for our social partners are highlighted.

THE END

Vassiliko, 21 September 2020
