Vassiliko Cement Works 1st summer school

On July 2nd, 2018, Vassiliko Cement Works summer school started operating. This is the first summer school in Zygi area to keep occupied employees' and neighboring communities' children, aged 6-12 years old.

The summer school is housed at Zygi elementary school facilities and is open for two months, from July 2nd until August 31st, as it keeps occupied 55 children of the company's employees and children from the neighboring communities. Children are under the supervision of 4 teachers, fully trained to educate, care and protect them.

The School is open every morning at 7.30am until 4.00pm; children have the opportunity to constructively use their time during the summer period, developing skills and knowledge through creative activities, team spirit and cooperation.

The School's weekly program includes activities, such as building workshops, painting, music, theater, taekwondo, confectionery, excursions, and information from a dietitian and discussions on Hygiene & Care with Vassiliko nurse.

The Program's aim, upon its completion at the end of August 2018, is to showcase the Company's Corporate Responsibility towards society, through actions regarding and directly affecting the interested parties.
