A Press Conference at Vassiliko Cement Works

PRESS RELEASE

A Press conference was held on Tuesday, October 24, 2019, in the training room, at Vassiliko Cement Works premises, entitled 'Vassiliko Cement Works 50+ years of life and its contribution to Circular Economy, the Environment and People'. The aim of the conference was to inform the media about the Company's development, in the context of showing respect and making a social contribution to the society of Cyprus.

During the conference, the Company's Executive Chairman mentioned that Vassiliko Cement Works owns the largest production unit in Europe and ranks amongst 12 out of the 33 countries in Europe where only one producer operates. In addition, the industrial port, which was totally constructed by the Company, constitutes a source of development of the energy center.

Subsequently, the presentations focused on the Company's growth in the cement market, the circular economy, respecting the environment using alternative fuels, the energy management, by creating a solar farm and in the social contribution via targeted Corporate Social Responsibility actions.

During the conference, there was a discussion with the media representatives about all those issues in order to illustrate the Company's true image.

Vassiliko Cement Works purpose is to remain a sustainable company, steadfast to its course upwards and to its quality product, to continue being the preferred supplier of its customers and an attractive employer for anyone wishing to work at its facilities.
