Upon the appointment of a new Director, appropriate training is provided as required. In accordance with the Articles of Association of the Company and the Corporate Governance Code, three out of the eleven Directors of the Company retire by rotation every year (each Director retires every three years) and, if eligible, may offer themselves for re-election. The Board has set the 75th year of age as the year of retirement.

Relations with shareholders

Importance is attached to maintaining a dialogue with the Company's institutional shareholders. The Annual General Meeting is used as a forum for communicating with shareholders, providing briefings on the Company's performance during the year under review and current business activity. There will be an opportunity for shareholders to meet with and put questions to the Directors, including the chairmen of the Audit, Nominations and Remunerations Committees. At Annual General Meetings, separate resolutions are proposed on each substantially separate issue and the number of proxy votes received for and against each resolution is announced. Members with voting rights of 5% may place items on the agenda of Annual General Meetings by submitting such items, either in hard copies or soft copies (electronic), accompanied with relevant explanations, at least 42 days before the date of the Annual General Meeting. Notices of Annual General Meetings are sent to the shareholders at least 21 days before the meeting. The Board of Directors appointed Mr. George Savva as Investor Liaison Officer to facilitate better communication with shareholders and investors.

Financial reporting

The preparation and presentation of this report and financial statements and other price sensitive public reports, seek to ensure that reports are prepared in a way that represents a balanced and understandable assessment of the Group's position and prospects.

Internal control

Risk assessment and review is carried out by the executive management with details of significant risks being documented. Periodic reports relating to significant risks and associated controls are prepared from this documentation and presented to the Board for its review. The Board has overall responsibility for the Group's systems of internal control and for reviewing their effectiveness on an annual basis, as well as of the procedures which confirm the accuracy, completeness and validity of the information that is provided to the investors. The review covers all systems of internal control, including financial and operational systems, as well as compliance systems and systems for the management of risks, which threaten the attainment of the Company's objectives. On the basis of the process described above during the year the Internal Auditors prepare Internal Audit Reports addressed to the Audit Committee which informs the Board through its Annual Internal Audit Report. According to the Internal Auditors Reports, the systems of internal control do not present any significant weaknesses. The Board has reviewed the key risks inherent in the Group, together with the operating, financial and compliance controls that have been implemented to mitigate those key risks. However, any system of internal control can provide only reasonable and not absolute assurance against material misstatement or loss. The Board has put in place an organisation structure with clearly defined lines of accountability and delegated authority. The principles have been designed to establish clear local operating autonomy within a framework of central leadership, stated aims and objectives. Procedures were established for business planning, budgeting, capital expenditure approval and treasury management. The Executive Chairman and the General Manager and Deputy General Managers regularly review the operating performance of each business and monitor progress against business plans.

Audit committee and auditors

The Audit Committee comprises of Messrs Costas St. Galatariotis (Chairman of the Committee - non-Executive Director), A. Mikellides (Independent non-Executive Director) and Mr. St. S. Lazarou (Independent non-Executive Director) who retired on 30th May 2017. The majority of the members of the Audit Committee are Independent non-Executive Directors. The Committee met three times during 2017, further meetings were not deemed necessary as the quarterly results were not required to be published, thus the minimum number of meetings set by the Corporate Governance Code i.e. four meetings was not met during 2017. The Committee meetings provide a forum for reporting by the Group's external and internal auditors who have access to the Committee for independent discussion, without the presence of the Executive Directors.

The Audit Committee reviews a wide range of financial matters including the annual and half-yearly results, statements and accompanying reports, before their submission to the Board and monitors the controls which are in force to ensure the integrity of the financial information reported to shareholders, and also oversees the procedures for the selection of accounting policies and accounting estimates for the Company's financial statements and ensures that a mechanism is in place to ensure the Company's assets, including the prevention and detection of fraud. The Audit Committee also advises the Board on the appointment of external auditors and on their remuneration both for audit and non-audit work, as well as proposes to the Board of Directors the appointment and revocation of appointment of the audit firm assigned with the Internal Audit functions, and ensures its independence.

The Group's internal audit function is outsourced to PricewaterhouseCoopers Ltd, a professional Auditors Firm, which monitors the Group's internal financial control, the internal control systems and risk management systems and reports to the management and to the Audit Committee.

The Audit Committee considers the above mentioned periodic reports whereas the Management is responsible for the implementation of the recommendations made by internal audit that carry out post-implementation reviews. The external auditors carry out independent and objective reviews and tests of the internal financial control processes, only to the extent that they consider necessary to form their judgement when expressing their audit opinion on the accounts.

The Audit Committee discusses extensively with the auditors significant audit findings arising during their audit work, which were resolved or remained unresolved, as well as the auditor's report which refers to weaknesses in the internal control system, in particular those concerning the procedures of financial reporting and the preparation of financial statements.

Going concern

After making appropriate enquiries, the Directors consider that the Group has adequate resources to continue in operational existence for the foreseeable future. Remuneration policy

The Board's policy is to employ high calibre people for its key positions. It requires a corresponding level of performance from those people and seeks to reward accordingly. The Group may commission special reviews from time to time to assess the Directors' compensation levels. Account is taken of the salary and total remuneration levels prevailing in comparable jobs both inside and outside the Construction and Building Materials sector, together with the individual performance and contribution of each Executive Director.

The remuneration of the Executive Chairman and the General Manager includes variable-pay components to ensure that the executive remuneration is linked to the Company's performance. A maximum limit of the variable-pay component is set. The non-variable component is sufficient remuneration when a variable remuneration is not granted. The Board considers that packages of this nature are consistent with prevailing practice and are necessary to attract, retain and reward executives of the calibre the Group requires. In framing the policy, the Board has given full consideration to the provisions of the Corporate Governance Code. The annual incentive plan rewards for the performance of the previous year and is paid in cash. The maximum bonus payment is expressed as a percentage of base salary and is based on the evaluation of the performance of the Executive Chairman and the General Manager conducted by the Remunerations Committee at the year following the performance period. The Remunerations Committee evaluates the performance of the Executive Chairman and the General Manager considering the Company's financial performance, costs containment measures, measures towards the Group's long-term viability, as well as non-financial criteria relating to development and creating long term value for the Group. Bonuses granted in 2017 concern rewards for the financial performance of the Company for the year 2016. The Company reserves the right for full or partial recovery of any bonuses granted on the basis of information which subsequently proves to be inaccurate.

In addition to the base salary and incentive plan participation, the Executive Chairman and the General Manager enjoy the same benefits as other employees of the Company, which include provident fund and medical fund.
